

Writing multi technique proposals for CERIC-ERIC

Matthias Girod

CERIC-ERIC, AREA Science Park, Trieste, Italy

This tutorial will introduce the participants of the HERCULES 2018 to the special multi-technique proposal format of CERIC-ERIC. Furthermore the purpose and function of the CERIC-ERIC two-step deadline and the new fast-track open access will be explained.

Finally the presentation will give insights into the characteristics of a review process for multi facility/multi technique proposals and will deliver useful hints and tools for first-time applicants.
