

**workshop on**

# **Big Data and Open Data**

**7 th – 8th May, 2014**

**Royal Museums of Art and History, Brussels**

ERF-AISBL in collaboration with Elettra - Sincrotrone Trieste, is planning to address the big data and open data issues by organizing a first workshop focused on the common problems that all data producing large scale research facilities are facing and will face in the years to come, and the ways to elaborate solutions. Purpose of the workshop is also to offer opportunities for discussions on specific proposals to be submitted to the Horizon 2020 program.
